## A. EXPLANATORY NOTES PURSUANT TO MFRS 134 - INTERIM FINANCIAL REPORTING

### A1. Basis of preparation

The interim financial report is unaudited and has been prepared in accordance with the requirements of MFRS 134: Interim Financial Reporting and Chapter 9.22 of the Listing Requirements of the Bursa Malaysia Securities Berhad (“BMSB”).

The interim financial report should be read in conjunction with the audited financial statements of the Group for the year ended 31 December 2014. These explanatory notes attached to the interim financial report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2014.

The significant accounting policies and methods of computation applied in the unaudited interim financial statements are consistent with those adopted in the most recent audited annual financial statements for the financial year ended 31 December 2014, except for the adoption of the following Malaysian Financial Reporting Standards (“MFRSs”), Issues Committee (“IC”) Interpretations and amendments to MFRS for financial periods beginning on or after 1 January 2015:-

Amendments to MFRS119 Defined Benefit Plans: Employee Contributions  
Annual Improvements to MFRSs 2010 - 2012 Cycle  
Annual Improvements to MFRSs 2011 - 2013 Cycle

The adoption of the above pronouncements does not have any material impact on the financial statements of the Group.

As at the date of authorisation of the interim financial report, the following new MFRSs, revised MFRSs, IC Interpretations, amendments to MFRSs and IC Interpretations were issued but not yet effective and have not been adopted by the Group:-

		<u>Effective dates for financial periods beginning on or after</u>
MFRS 14	Regulatory Deferral Accounts	1 January 2016
Amendments to MFRS 10, MFRS 12 and MFRS 128	Investment entities: Applying the Consolidation Exception	1 January 2016
Amendments to MFRS 10 and MFRS 128	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	1 January 2016

## B. ADDITIONAL INFORMATION REQUIRED BY BURSA MALAYSIA LISTING REQUIREMENTS

### B1. Review of Performance

For the current quarter under review, the Group recorded a consolidated revenue of RM14.4 million compared to RM249.2 million registered in the preceding year corresponding quarter. Such a severe drop in revenue was attributed to the temporary suspension of the Group's major subsidiary, namely Linyi Yehua Coking Co., Ltd. ("Yehua")'s metallurgical coke production plant since March 2015.

To recap, the Ministry of Environmental Protection of the People's Republic of China ("MoEP") had ordered all plants from industries perceived to be polluting to halt production until the newly revised and heightened environmental protection standards (introduced in 2015) is satisfactorily met. In this respect, Yehua had to abide by the said directive to temporarily suspend its operations and to carry out specifically identified rectification works on its production plant. Despite the fact that all the necessary rectification works being successfully completed on 31 May 2015, Yehua found itself being unable to re-start its operations immediately thereafter as its coking ovens had suffered certain degree of damages (an industry-wide predicament resulting from the drastic drop in oven temperature during the period of stoppage). Due to the complexity of the repair work to restore the ovens stemming from the unprecedented nature and manner of the shutdown of the ovens, the restoration of the damaged ovens had taken a protracted period of time. The status of the said restoration leading to the resumption of operations is as follows:

	Capacity (tonnes)	Completion of repair works	Firing-up of ovens	Testing and commissioning	Commencement of commercial production
Oven #1	300,000	01.08.15	01.08.15	23.09.15	04.10.15 
Oven #2	300,000	17.08.15	17.08.15	07.10.15	17.10.15 
Oven #3	300,000	01.09.15	01.09.15	22.10.15	01.11.15 
Oven #4	300,000	20.11.15	KIV *	KIV *	KIV *
Oven #5	600,000	20.11.15	KIV *	KIV *	KIV *
	<u>1,800,000</u>				

\* The management has made a strategic decision to defer the firing-up of ovens #4 and #5 due to the still unfavourable market condition besetting the industry at this juncture

In reference to the above, it is evident that the Group's reduced revenue in the current third quarter under review was derived from the sale of metallurgical coke produced during the testing and commissioning period of *Oven #1* as well as supplement from the sale of remaining held coke inventory. Given the said circumstances besetting the Group, contribution from the by-products during the current quarter have also been very much curtailed.

As a result of the suspension of operations and the staggered resumption of production as described above, the corresponding cost of sales were recorded at approximately RM20.5 million during the current quarter under review compared to approximately RM245.7 million recorded in the same quarter last year.

Premised on the above, the Group recorded a gross loss of RM6.2 million for the third quarter of the year compared to a gross profit of RM3.4 million in the preceding year

corresponding quarter. Relevant fixed manufacturing costs including workers' salaries, depreciation, repair and maintenance, electricity, etc. during the suspension period which still needed to be incurred were reclassified as operating expenses in the relevant quarters accordingly.

After taking into consideration the other income generated by the Group and the operating expenses and finance costs incurred, the Group reported a net loss before tax of RM18.8 million in the current quarter under review compared to approximately RM1 million in the preceding year corresponding quarter.

## **B2. Variation of results against preceding quarter**

The Group's consolidated revenue has increased to approximately RM14.4 million in the current quarter under review compared to approximately only RM3.6 million registered in the immediate preceding quarter ended 30 June 2015. This was due to the fact that restoration work has been completed on some of the ovens, thus enabling some revenue to be derived from coke produced during the testing and commissioning period as well as the sale of the remaining held coke inventory in the current quarter. In comparison, there were no operations in the immediate preceding quarter and almost non-existent sale of coke inventory during that period as a result of the stop-order directive from the MoEP in March 2015 (i.e. the period covering the entire immediate preceding quarter) which had affected not only coke producers but also our customers, the steel manufacturers.

As a consequence of the above, the cost of sales registered in the current quarter under review also increased in tandem with the increased revenue to approximately RM20.5 million compared to that in the immediate preceding quarter ended 30 June 2015 of only RM3.7 million.

For the current quarter under review, the Group recorded a gross loss of approximately RM6.2 million compared to a loss of approximately RM166,000 in the immediate preceding quarter. This relatively larger loss was due to the unfavourable pricing dynamics of coke and coal, emanating from the continued slackening of the steel industry and thus by extension, the coke industry.

After taking into consideration of the operating expenses, the Group recorded a net loss for the period of RM18.8 million compared to approximately RM20.6 million in the previous quarter ended 30 June 2015.

## **B3. Current year prospects**

The temporary suspension of operations had brought about significant impact to the Group, as evidenced by the financial results reported by the Group over the duration of inactivity caused by the said suspension. Notwithstanding that, the Group's affected subsidiary, namely Linyi Yehua Coking Co., Ltd. ("Yehua") had managed to satisfactorily complete all the relevant rectification work as required under the newly revised environmental protection standards on 31 May 2015 and is currently in various stages of completion insofar as the repair and restoration of its damaged coke ovens are concerned. Please refer to the table on the status of the repair and restoration work of the coke ovens in *Section B1* above.

Notes to the quarterly report – 30 SEPTEMBER 2015

Based on the said tentative repair and restoration schedule (as presented in Section B1 above), barring any unforeseen circumstances, the Group expects at least 50% of its production capacity to be fully restored for commercial production by the end of the current financial year.

Notwithstanding the above clearly defined resolution of its internal quandary, the Group anticipates other external challenges to continue to plague the steel and coke industries. The continually prolonged lackluster economic growth in China coupled with still weak external demand in the region is expected to thwart the short term outlook of the steel and coke industries. In this respect, it is no surprise that China's economic growth may hover below the psychological 7% level. Despite the fact that China still has a lot of financial fire power within its system, evidence has shown that the current leadership will continue to be steadfast in maintaining discipline in the rollout of any fiscal and/or monetary policies unless deemed absolutely necessary, in order to avoid indiscriminate and unnecessary Government spending, a situation which will mar the Government's effort towards realizing and completing the intended structural reform of its economy. In that, a more "subdued" and more balanced economic growth will be embraced by the current leadership, at least for the immediate near future.

Premised on the above, the Group has taken a cautious stance and expects its current year prospect to be somewhat restrained.

## B4. Variation on Forecast Profit / Profit Guarantee

The Group did not issue any profit forecast nor profit guarantee during the current financial period to date.

## B5. Taxation

No taxation was provided during the quarter under review.

A reconciliation of income tax expense applicable to profit/(loss) before taxation at the statutory income tax rate to income tax expense at the effective income tax rate of the Group is as follows:
